PROJECT DESCRIPTION

The proposed McLure Library Addition and Renovation (“McLure”) project (“Project”) will allow for the relocation of the School of Library and Information Sciences (SLIS) from the 7th floor of Gorgas Library (“Gorgas”) to McLure. SLIS is part of the College of Communications and Information Sciences, and this relocation will enhance program adjacency to Reese Phifer Hall and provide additional space needed in Gorgas.

The Project will allow for the comprehensive renovation of McLure (approximately 7,700 sf) and will fully address all deferred maintenance issues including all new mechanical, electrical, accessibility, life safety systems, technology and building envelope issues including new windows.

The addition (approximately 900) will also provide space for code required vertical circulation and an elevator as the building does not currently have one.

ADA access to McLure will be improved through the construction of a new entrance structure, which will also house program space below. Adjacent to the new entry is a plaza and gathering space designed with brick pavers, precast seat walls, new landscaping, and site lighting.

The Project will allow for the conversion of the stack space to general use and the floors will be aligned with the main building floors. The addition will not impact the University Boulevard elevation so as to maintain the character of the original building main elevation.

Programming documents have been completed for this project and the estimated construction cost is approximately \$18,000,000.00.

PROJECT GOALS`

All construction bid packages will be competitively bid in compliance with the State of Alabama Public Works Law (Code of Alabama, Title 39).

APPLICATION REQUIREMENTS:

The University is seeking Architectural & Engineering firms/teams with addition/renovation design expertise. The Architect/Engineer (A/E) firm will be responsible for providing architectural and engineering designs to satisfy the UA design standards and guidelines, the Alabama Division of Construction Management standards, and the State Building Code, as well as any other applicable codes for this type of project. **Please upload/submit one (1) electronic copy using the link below by 5:00 pm local time on Friday, September 16, 2022.**

- B. Describe your firm's experience with the coordination of major building systems for comprehensive renovations. (i.e. mechanical and electrical).
- C. Describe and provide examples of your firm's sensitivity to the massing, architectural design and detailing as it pertains to additions.

SELECTION PROCESS:

Upon receipt, submittals will be evaluated by the Selection Committee. The Selection Committee will rank the A/E firms accordingly to participate in oral Interviews (usually top three). A project program (if applicable or complete) will be sent to all top ranked A/E's to assist with their oral interviews. Following oral interview evaluations, the top ranked A/E firms will be recommended to the Board of Trustees for approval. A contract will be negotiated with the top-ranked A/E firm as approved by the Board of Trustees. If a contract can be negotiated, then that firm will be selected. If a contract cannot be negotiated, then negotiations with the next highest ranked A/E firm will commence until an agreement satisfactory to UA is reached. Preference shall be granted to an Alabama-based firm when qualities are comparable. This project is subject to approval by the Board of Trustees of the University of Alabama.

Note:

Upon entering into an Agreement, the selected firm will be required to submit a Vendor Disclosure Statement. Samples of these documents are attached for your review.
